

PRODUCT DESCRIPTION: Tail light
APPLICATION: 2015-2017 Ford F-150

INSTALLATION GUIDE

READ COMPLETE INSTRUCTIONS BEFORE INSTALLATION
Improper installation may void warranty.

TOOLS NEEDED: 8mm Socket

STEP 1

Factory 2015-2017 Tail light.

STEP 2

Lower tail gate and remove two 8mm bolts.

STEP 3

Hold tail light secure in hand and pull tail light towards back of vehicle to remove.

STEP 4

Disconnect both connections from factory tail light.

STEP 5

Clean surface area in fender well with mild soap or rubbing alcohol to remove any dirt and grime.

STEP 6

Peel 3m tape backing from resistor and press resistor securely in fender well.

STEP 7

Connect both factory connections and resistor to Anzo USA tail light.

STEP 8

Guide tail light locating pins into fender well. Install two 8mm bolts for tail light.

STEP 9

Repeat steps 2-8 for other tail light. Test all functions of lights before driving vehicle.
